

Casino Redemption System

CRS-E4

- (This compact self-service machine allows your customers to collect their winnings and exchange their banknotes for smaller denominations.
- (Buy your TITO directly with your credit card or with cash.
- (Thanks to this self-service terminal, your employees can perform tasks with greater added value. Go through a full transaction in only 3 clicks.

Casino Redemption System CRS-E4

CRS-E4 is an evolution of CRS and CRS-S which will allow you to provide to your customers more efficient and innovative services. With this self-service machine, give your customers the possibility to withdraw TITO tickets, load their Cashless card or receive their winnings in a short amount time.

Undeniable advantages

Security

The safety of your assets and of your employees is ensured:

- accessing the cashbox is secured through username and password recognition

- a secured trap door will lock itself when encountering error.

- all of our OEMs are ECB approved.

Simplicity

The design of the touch screen makes the kiosk easy to use. In less than 10 seconds, your customer is served.

Autonomy

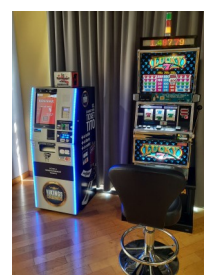

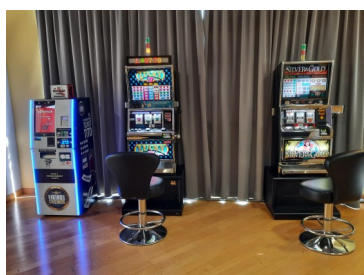

It allows you to automate the management of cash and the payment of winnings.

Flexible

The CRS offers a secure way of payment (coins and notes) in order to carry a currency exchange, to purchase Tito with your credit card.

Management

Choose the autorizations to assign to your employees : management, accounting, maintenance...
