

Deposit System

FDB

- Convenient and secure cash deposit machine.
- Through core banking connection, your customers will be able to credit their bank accounts with cash.
- With a customizable Human-Machine Interface, the FDB allows your customers to easily navigate on the cash system.

Fast Deposit Banknote

Secure and simplify your notes and coins deposit with the FDB. This cash system has been developed with high value deposit in mind. With banks and big retailers back offices as a primary target, it is adaptable and easy to use.

Undeniable advantages

Security

Conceived to simplify CIT pick ups, notes are deposited in a thermo sealed bag that can only be reached once sealed.

Intelligent

Notes and coins not recognised by the system are rejected.

Optimisation

An adapted and customizable touchscreen guides the user through the process.

Flexibility

With a high storage capacity, the FDB is adaptable and can store approximately 10,000 coins and 8,000 banknotes.

Efficiency

Through a connection to core banking, cash deposit can be instantly credited to a previously defined account.
