

Complete Payment Kiosk

CPK-L

- ⌋ This self-service kiosk is a complete payment solution. Customers can pay with cash, bank card, NFC, vouchers, a QR code or a barcode.
- ⌋ With an optimal positioning of the CPK-L components, the customer can easily find his way around the machine.

Complete Payment Kiosk

The CPK-L applies to any business in need of a complete and secured payment solution. These systems can be used for bill payment, fast-food orders or any transaction that can be directly handled by the end-user.

Undeniable advantages

Simplicity

The CPK-L is easy to handle. Customers can get a good understanding of the system in no time.

Reliability

Notes and coins not recognised by the system are rejected.

Efficiency

With each coin hopper separated, rendering is faster and breakdowns are prevented.

Autonomy

From order to collection, the customer has complete autonomy on this payment kiosk.

Security

The cash is kept safe through different security measures ranging from simple locks to added thick metal sheets.

Characteristics
