

Deposit System

ISS

- Intelligent safe for the deposit of bundled notes.
- Unlike any simple safe deposit box, this cash system automates notes deposits.

Intelligent Safe System

The ISS is a compact safe that is perfectly suited for small and medium sized organisations to deposit bundled banknotes autonomously and securely.

Undeniable advantages

Security

In addition to a reinforced structure, the ISS is equipped with a lock and a secured code identification.

Autonomy

As the operations are automated, the store manager is not required to be present to record the day's revenues.

Adaptability

With its small size, the ISS can fit any shop.

Reliability

Foreign or non-compliant banknotes are rejected.

Intelligent

A software controls the door blocker and sends an e-mail alert when the banknote cassette is full.

Characteristics

Deposit	Notes
Storage capacity	1 200 banknotes stacked in a cassette
Acceptation	Notes bundle
Identification	Code
Screen	5"7 touchscreen
Dimensions, mm (H x W x D)	576 x 260 x 550
Weight	65kg
Power supply	100-240 VAC, 50-60 Hz
Connection	TCP/IP
