

Withdrawal System

SRD

- With this system set up through the wall, withdraw coin rolls and banknotes to replenish your float.
- The customer is in complete autonomy when withdrawing cash. They can choose the quantities of coin rolls and banknotes that they wish to withdraw as well as the denominations by simply identifying themselves on this terminal.

Safety Rolls Dispenser

The SRD is an innovative solution for withdrawing coins rolls and banknotes to replenish your float. In self-service, you can choose for each denomination the desired number of rolls.

Undeniable advantages

Security

Employees can fill up the hoppers and cassettes at the back of the system.

Intelligent

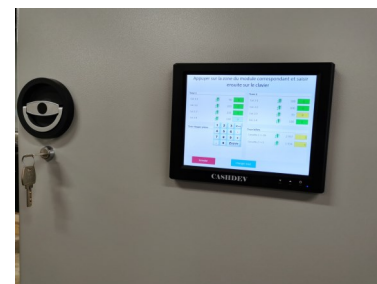

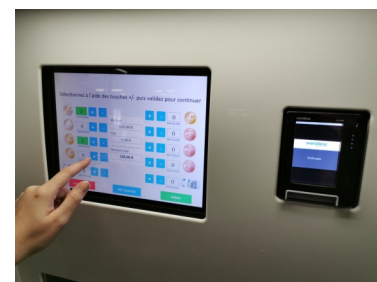

Recharging coin rolls is simple thanks to separate individual compartments.

Autonomy

Via the cash system interface, the customers have the possibility to choose the quantities of cash and the denominations they need, without the presence of a third party being required.

Supervision

The rear of the cash system is equipped with a display for recharging cash and checking the machine's status, stocks and transaction list.

Characteristics

Storage capacity	Coins : \approx 100 rolls per hopper (8) Notes : \approx 2 000 notes per cassette (1 or 2)
Screen	12" customer touchscreen 8" manager touchscreen, rear access
